

FRUITLAND

ELIM 500LUF A & H

Fruitland Eliminator packages offer a simple modular solution for all mobile vacuum truck applications. The Eliminator 500 series package offers the reliability of the RCF500 vacuum pump combined with the ease and customizability of Eliminator builds.

FEATURES

- Packages come in two main frame types; on the side of a truck's frame rails, or on top of the frame rails
- Side mount frames fitted with an angle drive configuration which connects to the PTO
- Side or top mount frames can be fitted with hydraulically driven configurations which can connect to the hydraulic system on the truck
- Available optional components such as secondary shutoffs, mufflers, additional reservoir, flushing kits, automatic diverter handles, and more

SPECIFICATIONS

- Maximum Air flow: 338 CFM (ft³/min)
- Maximum Vacuum: 28.5 in-Hg
- Power Required @ 27 in-Hg: 23 HP
- Max Pressure: 35 PSI
- Porting Size: Ø3.0"
- Max Input Speed: 1400 RPM
- Net Pump Weight: 450 LBS
